

Fight Liner Odeur
The standard-of-care for prosthetic liner hygiene

TRUSTED BY AMPUTEES. DESIGNED BY DOCTORS.

The Liner Wand is a pioneering company dedicated to improving the lives of individuals who have experienced limb loss. Our innovative hygiene system is designed to enhance daily comfort and convenience for amputees. We are on a mission to expand access to this technology and make a positive impact on the limb loss community.

THE LINER WAND HYGIENE SYSTEM

Liner funk cramping your style?
Skin irritation causing you discomfort?
It's time for a change!

The Liner Wand Hygiene System

The first deep cleaning prosthetic liner coating that is clinically-proven to reduce skin irritation and odor.

The Liner Wand system makes cleaning prosthetic liners quick and easy, while delivering a deep clean that lasts two weeks with a single application:

- Stop odor for 2 weeks
- Reduces skin irritation
- Prosthetist- approved
- Compatible with most prosthetic liners

Studies have shown that 74% of amputees will experience skin issues related to their prosthetic liner, and 70% complain of odor. If the liner is not properly cleaned on a regular basis, it can lead to more serious skin infections and other health issues. To prevent these problems, it is extremely important for prosthetic users to take proactive steps to maintain the hygiene of their liner.
